EDUCATION

University of Toronto, St. George Campus
Honours Bachelor of Science in Computer Science

Toronto, ON
Sept. 2020 - Jun. 2024

PROJECTS

Web Developer, ontariofgc.ca | *React, Leaflet, Vite, Git, Docker, LetsEncrypt, AWS*

- Developed ontariofgc.ca based on a client's specifications to display organization information, event information, and event locations using React, Docker, and AWS.
- 88% increase in the coverage of the regional organization after the launch through working with community leaders.
- Used LetsEncrypt with AWS EC2 which led to a 44% reduction of estimated cost.

Ontario Parks Website Prototype | *React, Flask, Git, Docker, Heroku*

- Utilized React for a responsive front-end web app to serve visitors of Arrowhead Provincial Park information.
- Implemented the back-end server with Flask, using a lightweight framework increase speed and decrease load.

Sous-Chef: Food Tracker and Kitchen Assistant | *Java, Android, Git, Jira*

- Personally ported the existing Java code base into an Android framework to improve usability.
- Integrated use of Git and Jira to greatly increase organization and work efficacy.
